Customize your unlimited data plan.

At Verizon, we understand that not everyone uses their [smartphone \(https://www.verizon.com/smartphones/\)](https://www.verizon.com/smartphones/) the same way, so everyone's wireless plan is unique. And, unlimited data plans also work with connected devices, meaning you can power your phones and tablets, smartwatches, and more on your terms.

Your kids might just be getting started with their own device, or your growing teens need a phone plan that delivers the basics - texting, gaming, and streaming without worrying about overages. Or, you might demand more from your plan with premium features like 5G Ultra Wideband connectivity, super-fast video streaming, or a mobile hotspot. Whether that sounds like your family, the reverse is true or you fall somewhere in between, the choices are here. And it's all simple to manage with Verizon's myPlan.

Pick your myPlan unlimited phone plan.

The first step in picking the right a la carte options for you and your family is knowing what's available. With Verizon's new unlimited plans, called myPlan, you're in control— pay for what you want, and nothing that you don't. Get the unlimited data plan you need and the perks you want, and you're never locked in; you can change it any time.
